

## 2020 Transfiguration School Summer Institute

2020 Transfiguration School Summer Institute is an enriching program designed for students during the summer months to help bridge the learning experience between the traditional school year. For students entering PreK-3 to Grade 6, the program is an exciting six weeks of motivating studies developed to support higher learning and creative thinking. We strongly encourage families, especially families new to Transfiguration, to enroll their child(ren) in the program to provide valuable learning and meaningful experiences during the summer months.

### **SPECIAL ANNOUNCEMENTS ABOUT THE 2020 SUMMER INSTITUTE**

- Homework will be optional with reading strongly encouraged. Parents will have a choice about how much or how little homework the child completes.
- Grade Projects: Each grade will be given an exciting and challenging problem to solve for the summer. This project will be as a class with guidance by the teacher and full class participation. The goal is to provide the students with a thought provoking challenge to discuss and solve as a team. They will leave the summer feeling like an inventor, scientist, trailblazer and hero!
- Non-Transfiguration students will have a reduced registration fee (savings of \$100!) for the summer portion only. Full time academic year (Sept-June) students do not pay registration for the summer.
